# Vegetable IDO Update

6-JULY-2010

## Your Invitation to attend a Vegetable Growers BBQ at Werribee

An informal “come as you are” afternoon BBQ get together has been organised for all vegetable growers in the Werribee, Bacchus Marsh and Keilor areas.

The afternoon will provide an opportunity to meet with your new IDO, [Helena Whitman](#) and discuss the IDO role and the types of events and workshops you would be like to be involved in.

Also during the afternoon there will be a brief information/demonstration session of the Vegetable Industry Carbon Footprint Tool.

This project was seen as of high importance by the Environmental Working Group and funded through the Vegetable R&D Levy.

The tool will be available later this year and will enable growers to prepare for carbon accounting and show the benefits to your farm business.

So come along and have some lunch, view the demonstration and have a chat with your new IDO.
